About Us

Environment, Health and Safety is the regulations that are designed to protect the environment, safety and health of employees which enables companies to conduct business in an environmentally responsible manner. Rekhapalli Environmental Solutions and Technologies was established in 2017 as an environmental, health and safety consulting organization serving public and private clients across the Nation, located at Vijjeswaram, West Godavri district, Andhra Pradesh. The inception ideology of the organization was environmental compliance which will be a major hurdle for any industry if not in control of pollution. REST was recognised as a “Start Up” company in year 2018. Received best start-up company in year 2019 from “India Start up 500 Award”. Become a member of Indian Green Buildings Counsel in year 2020.

A new methodology was developed by Rekhapalli Environmental Solutions and Technologies in association with Environmental Protection Society, Kakinada, is the Green Campus certification process by calculating eco-score for any educational institutions and industries. A green campus is a place where the eco-friendly practices and education combine to promote sustainable and eco-friendly practices in the organizations. Our core capabilities are Environment audit, Green and Energy audits, Environmental Impact Assessment for new and ongoing projects, Ambient/ indoor air quality monitoring, water, soil analysis, and noise monitoring, Hazardous and toxicological analysis. Safety enhancement programmes (SEP) for industries to improve their safety records, development of Open Classrooms, Thermal & Mechanical engineering Museum for colleges, Green Campus Certification and pollution assessment for the Universities and Colleges. Due to the changing built environment and the growing needs of Agriculture Sector; it became necessary to broaden the services that could be provided by Rekhapalli Environmental Solutions & Technologies Pvt Ltd are R&D in agricultural equipment, Manufacturing of Low-cost Animal lifting equipment. Research in agricultural and veterinary fields are some of the services and unique features that Rekhapalli Environmental Solutions and Technologies offers. Animal Lifter device which is a patented equipment is our first product manufactured in Agri-sector.

The establishment consists of Scientists, doctors and engineers as well as we collect Innovative idea generations, R&D by the young minds from colleges for their projects.

REST Pvt Ltd has continued to strive towards developing and manufacturing innovative products in agricultural and animal husbandry sectors, practise offering our clients the specialist individual attention and solutions required by an ever-changing project environment. REST Pvt Ltd sees teamwork on every project as the key success element and is responsible for creating this environment.

REST Pvt Ltd believes in a hands-on approach on all projects. Some of the major clients served by REST are Jawaharlal Nehru Technological University, Kakinada, A.P with Open Classroom and Thermal & Mechanical engineering Museum, Aditya College of Engineering, Surampalem, A.P which took Pollution Assessment & Certified as a Pollution free campus, JNTU Narasaraopet, A.P with Nakshatravanam and Mini Gokulam Project, Govt. of A.P. “As an establishment and teamwork, we overcome challenges by making MoU with Navega Enviro Engineers which is MoEF&CC approved laboratory, ISO-9001-2015, ISO-45001-2018 consulting company, Hyderabad, Telangana State. The firm is backed up by up-to-date Professional Engineers, Scientists and doctors’ group, which can be extended to cover risk on any size project.
